How to read this example

238/250 visits illustrates completion. 91% is a separate POP-compliance indicator, not the completion percentage. Metric definitions and data sources would be agreed separately for a real project.

Illustrative next steps

- 10 November: review the illustrative findings.
- 12 November: review the missing-item list.
- 17 November: update the illustrative action table.

These dates illustrate a plan; they are not delivery or response-time commitments.
